

## Label Printing Scale

**Patent product , counterfeiting not allowed**

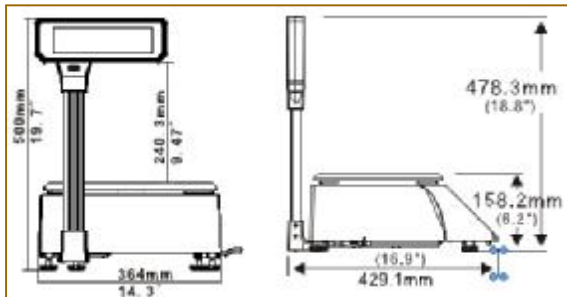

Membrane Key Patent No : ZL 01 2 03361.8

Insert-proof Patent No. : ZL 03 2 26288.4

### Specifications

|                      |   |
|----------------------|---|
| LCD Display          | Double-faced, Auto Back-light, LCD                      |
| Thermal Printer Head | 56mm width 203 dot/in                                   |
| Capacity             | 3/6/15kg x 1/2/5g or 6/15/30kg x 2/5/10g increments     |
| Storing Data         | 12.000 PLU, 2 barcode type, 1025 accounting information |
| Memory Capacity      | Standard 16Mbit (upgradeable)                           |
| PLU Quantity         | 12,000 (upgradeable)                                    |
| Overload Alert       | Alarm if more than 100.015%                             |
| Power Supply         | AC100V-230V   |

### Exclusive Functions

- Originated anti-insect loop design (patent) in the world and, completely occluded mechanical design for scale bottom prevents the machine from defects caused by insects, especially important for seafood department.
- Innovative removable and renewable hot keypad (patented, 112 x 2 keys) can be easily replaced even if it is soaked. Large number of hotkeys makes the operation friendly and quicker. The hotkeys can be edited freely by the PC software LINK32 and printed.
- Modularization design makes the printer mechanism more accessible and easily replaceable.
- Different Barcode Type and Weight Unit can be selected freely for each PLU in one scale.
- Powerful capacity of logo design (Based on Windows system) allows to design and download any Logo.
- Capable of printing batch serial number, which realizing the batch management on the purchase date and fresh status of perishable foods. The unit price will be automatically depreciated by the pre-set program according to the fresh status of food during price tag replacement, so as to avoid rotten foods caused by forgotten.
- World Originated design based on the idea of POS management. Work with Pinnacle software solutions: PLU manager, Network manager, Label Editing tool to generate EAN 18 code for management of goods, thus to solve the bothering difficulty in supermarket management.
- LS2XR Label scale is The first barcode label scale compatible with graphic design application, adjustable label size from 30mm x 30mm to 100mm x 60mm reduce the cost of labels.
